

Q BETTER LEADERS. BETTER CARE.

EMERGENCY MEDICINE PROGRAM BOOSTED – RPO PROJECT

A national healthcare management company specializing in emergency medicine management secures a lucrative contract with a busy inner-city hospital. The hospital executives and the healthcare management company are excited to partner, but the contract must go live in eight weeks. The business challenge is to assemble a complete clinical operations team that includes an ER Medical Director, ER physicians, advanced practice providers, RNs and support staff.

The management services company executives meet with Triad Healthcare Recruiting to devise a strategy to staff the project as soon as possible. We collaborate to implement a high-priority recruiting strategy that brings together the hospital system, the healthcare management company, and our team to fast-track the hiring process.

We leverage our T-Mapping™ technology to contact over 20K candidates in under 24 hours utilizing a multi-channel approach. We use automated candidate response processing and screening tools to expedite the initial phase of the recruiting process. Our senior consultants begin in-depth vetting to ensure proper fit for the roles.

The short-listed candidates undergo comprehensive due diligence and are pre-qualified for credentialing. We coordinate with the hospital and the healthcare management company to schedule the medical staff for the opening day and provide all support services to ensure peace of mind.

Seven years later, during the annual meeting, the executives of the company still provide us with praise and gratitude.
